## Workshop 102: Engagement Through Targeted and Integrated Services

Thursday, February 6, 2020

3:30 - 5:00 PM

Child support and other social service programs, which are concerned with the problems of poverty and unemployment, have worked to address these issues through both targeted services and integrated services. In this workshop, child support practitioners will hear about focused successful projects. Leaders from three projects share information about helping parents connect with supportive, anti-poverty services and about working with individuals to meet specific needs. The projects show a variety of positive outcomes, including more consistent payment of child support. The three projects are Milwaukee (WI) 532066, Mecklenburg County (NC) Community Resources Center, and the Colorado Consistent Payer Project.

Speakers: Rodney Adams, Larry Desbien, Mashunda McGlaston, Katie Murphy

Moderator: Robbie Endris
